Sachverhalt

Insurance against civil liability in respect of the use of motor vehicles covers damage caused by an insured vehicle when:

- people are injured or killed
- property is damaged or destroyed
- there are financial losses.

In the event of an accident, the insurance protects both the policyholder and the victim of the accident: The insurance compensates the accident victims in the case of substantiated claims up to the amount of the agreed insured amount. The policyholder is thereby released from their obligation to pay damages to the accident victim.

The following minimum insurance amounts are required by law in Germany:

- EUR 7.5 million for bodily injury
- EUR 1.22 million for damage to property and
- EUR 50 000 for pure financial losses.

However, most contracts in Germany provide for significantly higher insured amounts.

Insurance against civil liability in respect of the use of motor vehicles does not offer any protection, especially for damage to your own vehicle. Full or partial insurance is required for this.

Claims record

The consideration of an insured person's claims record is not required by law in Germany. When you move to Germany, you submit the claims certificate from your foreign insurer - preferably in German or English.

Claims for compensation against the insurer of the other party involved in the accident

In the event of an accident, contact the civil liability insurer of the other party involved in the accident. If you do not know who the other party involved in the accident is insured with, but you have their registration

Compensation in the event of damage caused by an uninsured or unidentified vehicle, in the event of an intentional accident and in the event of insolvency of the insurer

If you have experienced damage from an uninsured motor vehicle, contact the Verein Verkehrsofferhilfe e.V., an institution of German motor vehicle civil liability insurers that performs statutory tasks to compensate traffic accident victims.

The Verkehrsofferhilfe helps road accident victims in its function as a guarantee fund in the case of accidents in Germany that are caused by unidentified or uninsured motor vehicles or in which the car is used intentionally and unlawfully as a weapon or where the motor liability insurer becomes insolvent.
