Volltext	You can obtain a residence permit for the recognition of your foreign professional qualification if you have been placed in employment in the health and care sector on the basis of an agreement between the Federal Employment Agency and the employment services of your country of origin (e.g. within the framework of the "Triple Win" programme for the placement of nursing staff) or on the basis of an agreement in another selected area.

Sachverhalt

You do not have to pursue a recognition procedure in Germany before granting a residence permit. This can also be started after arrival in Germany. The overall procedure required for this is regulated in the mediation agreement.

The Federal Employment Agency must have consented to the exercise of employment in the desired occupational field. The approval of the Federal Employment Agency is granted for a limited period of one year. Consent may be granted for the exercise of employment in both regulated and non-regulated professions if certain conditions are met.

Regulated professions are those for whose access and exercise special professional qualifications had to be acquired, e.g. doctors, architects, pharmacists. You can find out whether your profession is regulated in Germany, which laws regulate it and where you have to contact to check your qualifications in the information portal "Recognition in Germany" (see "Further information").

The Federal Employment Agency may give its consent for the exercise of employment in a regulated profession if the desired employment is closely related to the professional knowledge in the profession to be recognised after entry and other requirements are met (see "Requirements"). A close professional connection is given if you e.g. want to have their qualification as a health and paediatric nurse recognised and want to work in the nursing assistant sector during the recognition procedure.

The residence permit entitles the holder to work up to ten hours a week independent of the professional qualification to be recognised .

The residence permit for the recognition of the professional qualification on the basis of an agreement of the Federal Employment Agency is a temporary residence title. It is granted for one year.
