Teaser	You can set up a no-stopping zone for loading and unloading in front of the house during a move.
Volltext	You can apply for a no-stopping zone for the duration of your move. This allows you to conveniently load and unload in front of your old and new home. Without prior permission, you may not reserve parking spaces on public roads without authorization, for example by placing garbage cans. Other road users do not have to respect unauthorized reservations. If there is an absolute ban on stopping in the area in front of the planned loading and unloading zone, you must apply for a special permit to be allowed to park there. In areas with a restricted stopping ban, on the other hand, you may load and unload if this is done without delay.
