Modul	Sachverhalt
Leistungsschlüssel	99003107261000, 99003107261000
Leistungsbezeichnung I	Submit a report for infection protection
Leistungsbezeichnung II	
Typisierung	3 - Bundesaufsichtsverwaltung: Regelung
Quellredaktion	Sachsen-Anhalt
Freigabestatus Katalog	fachlich freigegeben (gold)
Freigabestatus Bibliothek	unbestimmter Freigabestatus
Begriffe im Kontext	
Leistungstyp	Leistungsobjekt mit Verrichtung
Leistungsgruppierung	Gesundheit (003)
Verrichtungskennung	Entgegennahme (261)
SDG-Informationsbereich	
Lagen Portalverbund	
Einheitlicher Ansprechpartner	Nein

Modul	Sachverhalt
Fachlich freigegeben am	15.12.2020
Fachlich freigegeben durch	Lower Saxony Ministry of Social Affairs, Health and Gender Equality

Teaser	The Infection Protection Act requires the reporting of certain pathogens as well as vaccine damage by doctors and laboratories.
Volltext	The aim of infection protection is to prevent communicable diseases in humans, to detect infections at an early stage and to prevent their spread. The Infection Protection Act (IfSG) obliges doctors and laboratories to report. A distinction is made between named reports of pathogens and non-named reports of pathogen detections as well as reports of vaccine damage. Named pathogens: Doctors and laboratories for medical diagnostics are obliged to provide the local health authorities responsible for the medical practices with reports of conspicuous findings if the pathogens specified in the law are diagnosed during an examination or sample. The required registration forms are provided by the respective state authorities. Unnamed pathogen detections: The pathogen detections referred to in § 7 (3) IfSG are not to be reported directly to the Robert Koch Institute. The RKI provides special laboratory reporting forms for this purpose. Vaccine damage: The suspicion of damage to health beyond the usual level of a vaccine reaction is notifiable. The report is
