Teaser	A licence as a specialist company is required for demolition and renovation work on weakly bound asbestos products. Activities involving materials containing asbestos must also be notified to the competent authority before work begins.
Volltext	Application for authorisation to carry out demolition and renovation work in the presence of asbestos in weakly bound form in accordance with Annex I No. 2.4.2 (4) of the Ordinance on Hazardous Substances (GefStoffV) A licence as a specialist company is required for demolition and renovation work on weakly bound asbestos products. Activities involving materials containing asbestos must also be notified to the competent authority before work begins. In principle, the manufacture, use and processing of hazardous materials containing asbestos is prohibited for both companies and private individuals. Exceptions apply to activities involving materials containing asbestos during demolition, renovation and maintenance work.
Erforderliche Unterlagen	• Proof of expertise

Modul	Sachverhalt
	• Activity-related work plans/hazard assessment • Operating instructions • Proof of precautionary measures • Personnel and safety equipment (specified in TRGS 519) • Inspection certificates (e.g. equipment inspections) • Proof of possible equipment leasing • Proof of practical experience of the supervisor • References for remediation work already carried out A detailed list of all required documents can be found in the application form; details should be agreed with the responsible office.
Voraussetzungen	• Proof of expertise, specialist knowledge and practical experience • operational equipment in accordance with the Technical Rules for Hazardous Substances (TRGS) 519 on the handling of asbestos in order to protect people from health hazards caused by asbestos.
Kosten	EUR 210 to 3,000
Verfahrensablauf	Approval as a specialised company according to Annex I No. 2.4.2 Para. 4 of the Ordinance on Hazardous Substances is granted upon written application. The prescribed application form can be obtained from the "Hazardous Substances" website of the Saxony Occupational Health and Safety Administration or the form and download page of the Saxony State Directorate (see -> Further information).
