Hinweise

The extension of planning permission for the construction of facilities requires a timely application. If you find that your original planning permission for your installation is due to expire or that the construction work cannot be completed within the specified period, you should apply for an extension in good time. Failure to do so may result in the permit being decommissioned or withdrawn, which can lead to significant delays and additional costs.

It should be noted that the construction, modification or change of use of a building without the required building permit constitutes an administrative offense and can be punished with a fine. There is also the risk that an unauthorized construction project that has been started may be stopped or its use prohibited. Furthermore, removal can be ordered.

If you have a building permit, you must submit a notice of commencement of construction to the lower building supervisory authority at least one week before the start of construction.
