## Modul

## Sachverhalt

The subsidised housing is committed for a certain period of time for owner-occupation for the benefit of households with lower incomes.

## Erforderliche Unterlagen

You must enclose some documents with the application. Information on the required documents can be found on form 9010 on the L-Bank homepage.

## Voraussetzungen

- Funding can be provided for Married couples, civil partners within the meaning of the Civil Partnership Act (Lebenspartnerschaftsgesetz), long-term partnerships (couples) and single parents with at least one child living in the household, as well as severely disabled persons with special housing needs. Severe disability is determined according to the Social Code, according to which a degree of disability of at least 50 is required. The special housing needs in terms of floor plan or furnishings must stem from the severe disability. Childless couples as well as single persons with the desire to have children have the chance to receive supplementary support in the case of a child added to the household at a later date.
- The total annual income must not exceed the income limit applicable to your household.
- Your household must not already have adequate housing of its own.
- For the promotion of new construction measures and the promotion of new acquisition, the requirement of the New Construction Standard Plus (formerly Efficiency House Standard KfW 55) must be met.
- In the case of subsidised alteration and extension measures, you must ensure that the building components used meet the requirements of the Building Energy Act (GEG) (for example, the guidelines on the U-value).
- Own contribution is required. The personal contribution amounts to at least 25 percent of the total costs of the eligible project. If the loan is secured on a first-ranking basis, the personal contribution amounts to at least 15 percent of the total costs.
