Teaser	Have you noticed a road sign that you think is superfluous? Then you can suggest its removal.
Volltext	Traffic on public roads is regulated by traffic signs and traffic facilities for reasons of safety and order, climate and environmental protection, health and urban development. Traffic signs include, for example • Traffic signs • road markings • traffic lights Traffic facilities are, for example • red and white striped barriers • Bollards and barrier railings • parking ticket machines Sometimes the reasons for erecting a traffic sign no longer apply. This is the case, for example, if • the traffic routing has been changed • traffic signs contradict each other • bollards interfere with pedestrian or bicycle traffic • a traffic sign indicates a hazard even though it no longer exists You can submit proposals for the removal of traffic signs and traffic facilities to your road traffic authority.

Modul	Sachverhalt
	You must explain the reasons for your proposal. The road traffic authority will then check whether the traffic sign or traffic device is still required in the specific case.
