Sachverhalt

- environmentally relevant transport infrastructure projects, with the exception of local public transport projects, which contribute significantly to the reduction of emissions of air pollutants and/or noise and to the protection of human health by reducing the risk of accidents
- Projects to improve urban infrastructures (including improving their accessibility), with the exception of local public transport projects, which facilitate the integration of specific population groups into education, work and society.

Beneficiaries Beneficiaries are the municipalities classified as regional and medium-sized centers in the state of Mecklenburg-Vorpommern. In addition to municipal projects, measures sponsored by the state can also be supported. Type and scope, amount of the grant The grant is awarded as part of project funding as partial funding. It generally amounts to 75% of the eligible costs.

The municipality can pass the grant on to third parties. The grant recipient's own contribution to the eligible expenditure can also be provided by a third party in the case of projects involving day-care facilities for children.

For measures sponsored by the state of Mecklenburg-Vorpommern, the amount of the grant is up to 100 percent of the eligible costs.

Voraussetzungen	<p>The funding of projects requires the existence of a positively assessed, up-to-date integrated urban development concept. In the concept, the municipal strategies for overcoming the economic, demographic, ecological, climatic, cultural and social challenges and problems facing the municipality must be worked out and comprehensively presented. The projects submitted for funding must be developed in the context of the strategy. The individual projects must meet at least one of the following objectives: (a) Improving the sustainable use of cultural heritage, b) improving the quality of the urban environment and c) improving opportunities for integration into education and work.</p>
Kosten	none
Verfahrensablauf	<p>Application procedure Projects are generally selected within the framework of a competition call. The selection criteria are attached to the respective call. The projects must be submitted to the Mecklenburg-Vorpommern State Funding Institute via the responsible legal supervisory authority.</p> <p>The highest building supervisory authority is responsible for the technical aspects.</p> <p>For the submission of a project, the municipalities select projects from the entirety of potentially feasible projects for their municipality to implement their integrated urban development concept. If several projects are proposed, the municipality determines a ranking order. The applications for the projects must be accompanied by documentation of the project selection at municipal level.</p> <p>The responsible ministry informs the municipality about the decision on project selection at state level and, in the event of a positive vote, invites it to submit a qualified funding application to the Mecklenburg-Vorpommern State Funding Institute.</p>
