Erforderliche Unterlagen

- Proof and information on the required expertise, independence, reliability and technical equipment

Further documents may have to be provided following queries from the competent authority.

- If you operate nationwide, the authority may require you to submit a valid accreditation confirming compliance with the requirements of DIN EN ISO/IEC 17025:2005 relating to the parameters and test methods.
- Equivalent recognitions and certificates from another member state of the European Union or another state party to the Agreement on the European Economic Area are possible if they show that comparable requirements are met.
- Identity card or passport with confirmation of registration
- Written informal application, including extract from the commercial register/trade register
- Declaration of exemption from any liability for the activities of the third-party inspector vis-à-vis the country in which he is active
- Description of the control and monitoring methods used

Voraussetzungen

You have the necessary expertise, independence, reliability and technical equipment and carry out quality assurance and quality control measures, including regular successful participation in interlaboratory comparisons.

You have submitted the application in the federal state in which you have your registered office. If this is abroad, you submit the application in the federal state in which you primarily wish to carry out the activity.

If the person wishes to be notified as a body that regularly carries out waste oil inspections in accordance with the Waste Oil Ordinance, an application is required. Proof must be provided that the applicant has the necessary expertise,
