Teaser	Do you want to combine several plots of land into one or merge several parcels of land into one? To do this, it is necessary to apply to the competent authority for a merger of plots of land or a merger of parcels of land.
Volltext	Several plots of land can be combined into one plot of land in the land register by means of a land consolidation. The publicly appointed surveyors and authorized representatives of the Thuringian State Office for Land Management and Geoinformation (TLBG) are authorized to certify the signatures on applications for mergers. The merging of parcels is a cadastral process for combining several neighboring parcels into one parcel. The parcels to be merged must form a local and economic unit. The merging of plots of land and the merging of parcels of land are often carried out in conjunction.
Erforderliche Unterlagen	The following is required to process the application: • Identification of the applicant (personal document), • Details of the properties / parcels of land concerned.

Modul	Sachverhalt
