Volltext	<p>You can obtain a residence permit to carry out a qualification measure if a recognition procedure has been carried out at a body responsible in Germany for the recognition of professional qualifications and the recognition body has established that the qualification measures are - for the recognition of your professional qualification (determination of equivalence to a domestic professional qualification) or - for the granting of a license to practice your profession (access to the profession) are required. Qualification measures include adaptation and compensation measures in theoretical and practical form (internships in the company, theoretical courses, mixed forms), preparatory courses for examinations and language courses. The residence permit for the recognition of foreign professional qualifications is a temporary residence title. It is issued for the duration of the qualification measure, but for a maximum of 18 months. With your residence permit for the exercise of foreign professional qualifications, you are allowed to pursue employment independent of the qualification measure for up to 10 hours per week.</p>
