Teaser	Have you noticed a road sign that you think is superfluous? Then you can suggest its removal.
Volltext	Traffic on public roads is regulated by traffic signs and traffic facilities for reasons of safety and order, climate and environmental protection, health and urban development. Traffic signs include, for example • Traffic signs • road markings • traffic lights Traffic facilities are, for example • red and white striped barriers • Bollards and barrier railings • parking ticket machines Sometimes the reasons for erecting a traffic sign no longer apply. This is the case, for example, if • the traffic routing has been changed • traffic signs contradict each other • bollards interfere with pedestrian or bicycle traffic • a traffic sign indicates a hazard even though it no longer exists

Modul
Sachverhalt

You can submit proposals for the removal of traffic signs and traffic facilities to your road traffic authority. You must explain the reasons for your proposal. The road traffic authority will then check whether the traffic sign or traffic device is still required in the specific case.

In addition to the reasons for the removal of traffic signs and traffic facilities, a precise local description of the traffic sign/traffic facility in question is required, and an indication of exactly which traffic sign/road facility is being proposed for removal; photos and sketches may also be useful.

Erforderliche Unterlagen

none

Voraussetzungen

none

Kosten

There are no costs.

Verfahrensablauf

The local road traffic authority reviews the proposal and always involves the relevant road construction authority and police department.

Bearbeitungsdauer

The review and decision varies in time/individually depending on the individual case.

Frist

There is no deadline.

weiterführende Informationen
Hinweise

There are no indications or special features.

Rechtsbehelf
