| Handlungsgrundlage            | §8 paragraph 8 in conjunction with Annex I No. 2.4.2 paragraph 4 of the GefStoffV                                                                                                                                                                                                                                                                                                                                                                              |
| Teaser                        | If you want to carry out remediation or demolition work in the presence of asbestos with high fiber releases, you need a permit, which you apply to the competent authority.                                                                                                                                                                                                                                                                                   |
| Volltext                      | For remediation or demolition work in the presence of asbestos with high fiber releases, you need a permit. This is especially true for work when asbestos is present in a weakly bound form or by the work in which a high number of asbestos fibers can be released.                                                                                                                                                                                         |
| Erforderliche Unterlagen      | <ul style="list-style-type: none"> <li>• Proof of competence</li> <li>• Test certificates (e.g. device inspections)</li> </ul>                                                                                                                                                                                                                                                                                                                                 |
