Teaser	A permit is required to carry out animal experiments
Volltext	<p>Before carrying out an animal experiment, a permit must be obtained from the competent authority in accordance with § 8 of the Animal Protection Act.</p> <p>Animal experiments within the meaning of the Animal Welfare Act are interventions or treatments for experimental purposes</p> <ol style="list-style-type: none"> <li>1. animals, if they are likely to cause pain, suffering or harm to those animals;</li> <li>2. animals which may cause animals to be born or hatch, which suffer pain, suffering or harm, or</li> <li>3. on the genetic material of animals, if they may be associated with pain, suffering or damage to the mutagenic animals or their carriers.</li> </ol> <p>Animal testing also includes interventions or treatments that are not for experimental purposes, and</p> <ol style="list-style-type: none"> <li>1. carried out for the manufacture, extraction, storage or propagation of substances, products or organisms;</li> <li>2. removed in whole or in part by organs or tissues for scientific purposes:             <ol style="list-style-type: none"> <li>(a) transplant the organs or tissues;</li> </ol> </li> </ol>

## Modul

## Sachverhalt

(b) to cultivate crops, or

(c) examine isolated organs, tissues or cells;

or

3. which are carried out for the purposes of education, training or further education,

insofar as one of the conditions specified in sentence 1 numbers 1 to 3 is met. The killing of an animal is not considered animal experimentation if it is done exclusively for the purpose of using its organs or tissues for scientific purposes.

The permit is granted in a simplified approval procedure in accordance with Section 8a of the Animal Protection Act if the experimental project is a project,

1. which has as its object exclusively animal experiments, the carrying out of which is expressly

(a) is required by law or regulation, by the pharmacopoeia or by a directly applicable act of the European Community or of the European Union;

b) is provided for in a general administrative regulation issued by the Federal Government or a Federal Ministry, or

c) is ordered by an authority or court on the basis of a law or a regulation or a directly applicable legal act of the European Community or of the European Union, or is required in individual cases as a prerequisite for an official decision,

2. which relates exclusively to animal experiments carried out on animals in the form of vaccinations, blood samples or other diagnostic measures in accordance with procedures that have already been tried and tested, and

(a) the detection of diseases, ailments, bodily injuries or physical ailments in humans or animals, or

## Modul

## Sachverhalt

(b) the testing of serums, blood preparations, vaccines, antigens or test allergens in the context of authorisation procedures or batch tests

or

3. which deals exclusively with animal experiments carried out in accordance with tried-and-tested

(a) for the manufacture, extraction, storage or propagation of substances, products or organisms, or

b) for diagnostic purposes

be carried out.

## Erforderliche Unterlagen

The application must contain all the necessary information in accordance with § 31 TierSchVersV (application according to § 8 TierSchG) or 36 TierSchVersV (application according to § 8a TierSchG). In addition, the following documents must be submitted as attachments:

- Completed application form
- Proof of qualifications of all contributors
- Printout of the non-technical project summary (NTP) from the database "animaltestinfo" (except application according to § 8a TierSchG)
- If necessary, final assessments of genetically modified lines
- If applicable, score sheet (termination criteria)
- If applicable, completed form for biometric planning for each partial experiment
- If applicable, completed form for the use of primates
- If applicable, completed form for the use of animals according to § 20, § 21 or § 22 TierSchVersV
- If applicable, applications for exemptions
