Teaser	You can apply for a permit to import or export waste for the shipment of waste from Germany to a third country or from a third country to Germany from SBB SonderAbfallgesellschaft Brandenburg/Berlin mbH.
Volltext	Within the European Union (EU), including the EFTA states (Iceland, Liechtenstein, Norway, Switzerland), the transboundary import or export (shipment) of waste is permitted. To do this, you must have previously completed an approval procedure (notification procedure). This procedure is mandatory for shipments of waste on the "Yellow" Waste List, non-listed waste and, in general, waste destined for disposal. Hint: The transboundary movement of waste is subject to different rules, depending on the • classification of waste (Green or Yellow Waste List), • type of disposal (recovery or disposal) and • Recipient State. If you want to export waste to non-EU or EFTA countries, you should contact the competent authority at an early stage to find out about the specific regulations. You can find out which wastes are classified and how in the "Consolidated Waste Lists" of the Basel Convention

	Contact Point. The notification shall be valid for a maximum of one year. Only notifications for recovery facilities with prior approval can be valid for up to 3 years. However, the authorities can also approve shorter periods. In this case, the shipment of waste is permitted as long as the approvals of all authorities are valid. The export of "green" waste for recycling within the EU is only subject to information obligations. https://www.umweltbundesamt.de/sites/default/files/medien/2503/dokumente/konsolidierte_abfalllisten_de_1-2021.pdf https://www.umweltbundesamt.de/sites/default/files/medien/2503/dokumente/konsolidierte_abfalllisten_de_1-2021.pdf
