Teaser	Private primary and secondary schools approved by the school authorities can receive grants for building measures.
Volltext	Purpose The state building cost subsidies are intended to support private sponsors. Object Private primary and secondary schools that are operated by a legal entity under public or private law and operate on a non-profit basis are granted subsidies for necessary construction measures that have been approved by the school authorities. A two-year waiting period applies (exception: religious denomination schools). Recipients of funding School authorities of private alternative schools are eligible to apply. Type and amount School authorities receive a grant of 60% (70% for state-recognized primary and secondary schools and 100% for religious denominational schools) of the eligible costs for necessary construction measures that have been approved by the school authorities, provided that these costs exceed EUR 25,000. In this context, the costs can be recognized as eligible costs for municipal school construction measures in municipal financial equalization. The timing of compensation payments for construction costs depends on the funds allocated in the state budget. For private elementary school and secondary/middle
