Teaser	If you keep a specially protected vertebrate animal, you must report the animal's population and any changes to the population after you start keeping it. You must also report any changes to the animal's regular location.
Volltext	<p>If you keep a specially protected vertebrate animal or a vertebrate animal of the species listed in § 3 para. 1 sentence 1 BArtSchV, you must report the animal's population and any changes to the population immediately after the start of keeping. You must also report any changes to the animal's regular location.</p> <p>If you are in possession of a "specially protected" vertebrate animal or a vertebrate animal of the species listed in § 3 para. 1 sentence 1 BArtSchV and wish to keep it, you must notify the lower nature conservation authority immediately. The disposal of the animal must also be reported in the event of sale/death or loss. The obligation to notify applies to both the purchaser and the seller.</p> <p>Species under special protection include, for example, monkeys, parrots, tortoises and giant snakes, as well as various lizard species such as day geckos and chameleons. All European bird species are also included.</p> <p>You can find out whether a species is specially protected by using the WISIA database of the Federal Agency for Nature Conservation (see "Further links").</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> documents proving legal ownership of the specimens (e.g. EU marketing certificate, certificate of origin, other

Hinweise	It is strongly recommended to document the takeover or surrender of a specimen, stating the animal's registration number and the first and last names or addresses (including telephone number if possible) of the previous and subsequent owners with the signatures of both partners in order to avoid any subsequent disputes. This document must be submitted to the competent authority as proof of legality when registering or deregistering an animal.
