Volltext	With a changeable license plate you can use two vehicles under the same license plate. The allocation of changeable license plates is only possible for two vehicles of the same vehicle class, e.g. class M1, two two-wheeled or three-wheeled motor vehicles and light quadricycles, two trailers with a maximum permissible mass of up to 0.75 tonnes The license plates consist of two parts: a replaceable common license plate part and a vehicle-specific license plate part.
