Teaser	The disposal of waste from private households and thus also of problematic materials is the responsibility of the responsible public waste disposal authority. In Hamburg, the Hamburg city cleaning department is responsible for this as the public waste disposal agency.
Volltext	The disposal of waste from private households, including problematic substances/pollutants, as well as disposal waste from other areas of origin, is the responsibility of the public waste disposal authorities (districts and urban districts). In the Free and Hanseatic City of Hamburg, the Hamburg city cleaning department is responsible for this. Problematic materials are waste that, due to their material properties, must not be disposed of with household waste, as they can endanger your health and/or have harmful effects on the environment. Have your private problem and pollutants professionally disposed of by the Hamburg city cleaning department. You can use the recycling centers, the arrival service or the mobile collection of problematic materials.
Erforderliche Unterlagen	Please ask the Hamburg city cleaning department which documents you may need to submit.
Voraussetzungen	The problem collection includes: Batteries (delivery of car batteries to the recycling centers) Fluorescent tubes, energy-saving lamps, LED lamps thermometer Paint and varnish residues, anti-rust agents, acids, lyes, stains, plant and wood preservatives, stain removers and impregnating agents, adhesives, shoe polish and waxes Thinners and solvents such as acetone, turpentine, petrol and nitro thinner, brake fluid weed
