Hinweise	<p>Only one permit may be issued per applicant, unless more permits can be issued than there are applicants. Applicants who do not operate the taxi business as their main occupation, who have sold or leased their taxi business in the last 8 years, have not properly fulfilled their operational obligations. Legal entities under public law are deemed to be entitled to apply for approval without separate proof of the requirements. No taxi license is required for Velo Taxis. However, a special use permit from the responsible district may be required. The fees for issuing a taxi permit depend on the number of vehicles applied for and the duration of the permit. Payment is made exclusively by Girocard or a conventional credit card. Deadlines only begin to run when a decision-making application is submitted. If the application is complete, a decision must be made within three months. The deadline can be extended by three months if necessary. The processing time of the application may depend, among other things, on whether all documents relevant to the decision have been submitted or whether additional documents are required</p>
