Handlungsgrundlage	§ 7 Nuclear Waste Management Ordinance
Teaser	If you want to dispose of radioactive residues or waste from the medical, research and commercial sectors, you need a permit to deliver radioactive waste for storage at the state collection point.
Volltext	To dispose of or hand over radioactive waste to the state collection point, you require approval from the responsible authority. If you have the approval, you are responsible for organizing the delivery to the state collection point. If you transport radioactive waste to the state collection point by road, you must pay attention to the requirements of the dangerous goods law.
Erforderliche Unterlagen	Written application for the delivery of solid radioactive substances for storage in the state collection point. Transport option that meets the requirements of dangerous goods legislation.
Voraussetzungen	No
Kosten	The costs are based on the current Hamburg environmental fee schedule. In addition, a final storage fee must be paid. Both are calculated according to the volume of the waste per liter. The repository fee is recalculated annually.
Verfahrensablauf	You fill out the relevant application form completely and send it to the responsible authority. The competent authority checks whether the conditions for accepting the radioactive waste are met. If necessary, the responsible authority will request further

	documents or information from you. If all documents are available and the requirements for acceptance are met, you will receive written approval from the responsible authority. You will then contact the state collection point to coordinate the date and details of the delivery. If the conditions for acceptance are not met, the responsible authority will ask you to bring the waste into a condition that complies with these regulations. The notice will be sent to you by email or post. The fee notice will be sent to you separately.
Bearbeitungsdauer	Processing usually takes 2 to 4 weeks
Frist	No

Hinweise	The city of Hamburg and the state of Schleswig-Holstein operate a joint state collection point in Geesthacht. If the radioactive waste delivered does not meet the acceptance conditions of the state collection point and therefore cannot be accepted, the state collection point will inform the applicant and, if possible, provide information about other disposal methods.
Rechtsbehelf	Objection within one month of receipt of the decision. The unsuccessful objection procedure is subject to a fee.
Kurztext	Apply for approval to deliver radioactive waste for storage at the state collection point Interim storage of radioactive waste in a state collection point Disposal of radioactive waste via a state collection point Application for authorisation for the delivery of solid radioactive substances for storage in the state collection point Approval of the delivery by the
