Volltext	The residence permit for the purpose of studying is a temporary residence permit. You can apply for an extension of the residence permit if you have not yet completed your degree but can still do so within a reasonable period of time. A stay of ten years is generally considered the upper limit for the length of stay. When deciding on the extension of a residence permit for the purpose of studying, the immigration authorities can obtain and take into account opinions from the university or other institutions approved for training or further education on questions relating to study requirements, the course of study, the degree and other academic matters. The same conditions apply to the extension of the residence permit for the purpose of studying as for the granting of the permit. In particular, your livelihood must be secured for the duration of your studies. In the event of an extension,

If the course lasts less than two years, it will be extended for the duration of the course. As a rule, the residence permit cannot be extended if this was already excluded when the residence permit was issued or last extended.
