Teaser	Would you like to take in a foster child? Then you must qualify as a foster parent.
Volltext	<p>In certain cases, you as a foster carer need a permit to take in a foster child. To get the permit, you have to apply and qualify. If you want to become a foster carer as part of child-rearing assistance provided by the youth welfare office, you do not need a permit. However, the responsible authority will check your suitability as a foster carer according to the same criteria.</p>
Erforderliche Unterlagen	Health certificate Health questions answered Payroll Picture of the family
Voraussetzungen	<p>The decisive factor for accepting a child into general full-time care is a match between the child's needs and the existing skills and resources of the carers. Carers providing this type of care are not expected to have professional qualifications in a nursing or educational profession. As a foster carer, you must complete the foster care service's qualifying courses before starting your work. A professional or semi-professional background is expected for the admission of a child with special educational needs. In this context, semi-professional backgrounds include, for example, previous care of a foster child for a period of at least two years or long-term care and support of children and young people in a voluntary capacity. Foster parents can be couples with or without children of their own, as well as individuals with a stable social network.</p>
