Teaser

You should apply for an extension of your residence permit in good time if you want to continue attending school in Germany.

Volltext

If you have already received a residence permit for the purpose of attending school, you must apply for an extension in good time before the residence permit expires. The immigration authorities will extend the residence permit if the conditions are met. The

granting of a residence permit requires, among other things, that attending school is the main purpose of your stay. Merely attending school part-time does not meet these requirements. This is generally issued for the duration of your stay.

Erforderliche Unterlagen

In principle, the extension of your residence permit requires the submission of the same documents as for the initial issue: Recognized and valid identity document (for example: passport or passport substitute) Current biometric passport photo (45 x 35 mm) Proof of securing your livelihood (for example: from your own assets, payment of security into a blocked account, bank guarantee, declaration of commitment, scholarship, proof of parents' income or similar) Proof of health insurance coverage (for example: confirmation of health insurance coverage or insurance policy). Certificate from the school stating the duration and conditions of school attendance For minors: consent of all persons with custody of the child to the planned school attendance (declaration of consent); if the parents with custody cannot submit the application together for their child, a written authorization from the absent parent is required; if custody is only granted to one parent, the signature of this parent is sufficient The documents and information must generally be presented in German. In individual cases, the immigration authorities may require less or more evidence.

Voraussetzungen

In principle, the same requirements must be met to extend the residence permit as when the residence permit was first issued. This means: They still want to attend a public or state-recognized school with an international focus or a private school that prepares its students for international qualifications, qualifications from other countries or state-recognized qualifications (such as the International Baccalaureate [IB]). Your chosen school will continue to ensure that classes are made up of students from different nationalities. You can secure your living expenses and health insurance for the duration of your stay from your own resources without having to rely on public benefits. The current BAföG rate (Federal Training Assistance Act) is used as a guideline. There is no interest in deporting you.

Verfahrensablauf

Find out whether your immigration authority allows you to submit your application online or whether it has a special application form. If you are under 18 years of age, you may not submit the application yourself, but need a representative (usually the application is submitted by the parents with custody). If the application can only be submitted in person, make an appointment at the immigration office. If you apply online, the immigration office will contact you after receiving your application to make an appointment. If you are under 18 years of age, you must be accompanied by at least one representative when you appear in person. If the parent with custody cannot appear in person, a written power of attorney must be submitted for the application. During the appointment, your identity and documents will be checked (please bring your documents, preferably in the original, with you to the appointment). If your application is approved, your fingerprints will be taken to produce a residence permit in the form of an electronic residence permit (eAT card). The immigration authorities commission the Federal Printing Office to produce the eAT card. Once the process is complete, you will receive information and can collect the eAT card from the responsible office. The eAT card must always be collected in person. If your application is rejected, you will receive a rejection notice.

Residence permits for school attendance are usually issued from the ninth grade onwards. The school must ensure that classes are made up of students of different nationalities. Classes or groups of classes for citizens of a single state are not permitted. Exceptions may be made for so-called embassy schools. The granting of a residence permit requires that school attendance is the main purpose of the stay. Mere part-time schooling is not sufficient. If the applicant is a minor, the persons authorized to care for the applicant must consent to the planned school attendance in Germany. Living expenses (including health insurance) must be covered from one's own resources for the duration of school attendance. Living expenses can also be covered by third parties.
